

# New Edge Developers

## Minutes for September 5, 2019

**Present:** Ramiro Gonzalez (Chair), Gabriel Mejia, Armaan Kapoor

**Absent:** Michael Mendez

**Also present:** Luis Angulo

### Announcements

1. Food pantry is open, go meet Elizabeth.
2. Google is on campus, some people may not show up.
3. Michael Mendez is database.

### Reports

#### *Framework*

Gabriel did research and found that React is the most rated framework. Most usage in business and learning it can be beneficial to getting a job. It is Open Source, has many libraries. "The best code is the code you don't write"

#### *Progressive Web App (PWA)*

code.nasa.gov, can appear native, has access to hardware.

1. No download, dynamic, push notifications, twilio.
2. iOS and Android can be costly and timely.
3. Angular has a learning curve.

#### *App Features*

Implement Single Sign in UC merced. Ask IT.

#### *Meeting with client*

basicneeds.ucmerced.edu,

#### *Database*

Michael Mendez, in progress to determine what to use for backend.

#### *Ionic*

Moving towards Angular, React, Ionic, and Backend

### **Old Business**

1. People may show up late
2. Need to communicate with members

### **New Business**

1. Only commit source folder
2. Need to communicate with members
